

## Women Moving Forward® Survey Summary

Women Moving Forward® allows women to resolve personal and professional issues in 3 days. It also gives women the tools to be promoted.

It gives companies a tool to upgrade the skill and ability of women in their employ. It also can be a tool to keep “at risk women” from being regrettable losses to a company thereby saving millions of dollars yearly.

Women Moving Forward® is cross-cultural and produces the results for women from many different backgrounds.

Women who take Women Moving Forward® (WMF®) are more likely to understand their companies better and to move forward in that company as well as in life.

The results of Women Moving Forward® stay with women long after they complete the workshop (over 6 – 28 years for most respondents).

Here are some of the important survey results:

**100%** of respondents felt they benefited from taking Women Moving Forward®

**95%** of women resolved the issue they brought to Women Moving Forward® to resolve.

**90%** of women resolved other career issues as well.

**82%** of women resolved other personal issues as well.

**92%** of women felt their companies benefited from them attending.

**90%** of women said their professional life was better after taking WMF®

**90%** of women said their personal life was better after taking WMF®

Of the sample **23%** of the women were **planning to leave** their companies before they attended WMF®. **100%** of those women are **still with their companies**.

**64%** of respondents **were promoted** by their companies an average of **2 levels** per person.

**78%** of respondents who **took WMF® and another SVVCI® course** were **promoted** by their companies.
